## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 22, 2003 has been entered.

### ***Response to Amendment***

2. The preliminary amendment filed on September 22, 2003 under 37 CFR 1.114 has been considered but is ineffective to overcome the Gerace (5,991,735) and Hanson et al (5,974,398) references. The preliminary amendment added claim 29. The currently pending claims are Claims 1-13, 19-23, and 29.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claim 29 is rejected under 35 U.S.C. 102(e) as being anticipated by Hanson et al (5,974,398).

Claim 29: Hanson discloses a method for determining an advertisement to provide during an advertising opportunity, comprising:

- a. accepting a plurality of advertisement offers and advertising criteria with targeting criteria and an amount from advertisers (col 3, lines 48-56);
- b. receiving an advertising opportunity (col 7, lines 5-21);
- c. determining matching advertisement offers based on the advertising criteria and the user's personal characteristics (col 4, lines 45-50); and
- d. selecting one of the advertisements to provide to the user, the selection being based on the offer having the highest amount (col 5, lines 39-42; col 7, lines 33-34 and 54-60; col 11, lines 29-31; and col 14, lines 22-25).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-13 and 19-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gerace (5,991,735) in view of Hanson et al (5,974,398).

These claims have been finally rejected by the Examiner (paper number 10) and affirmed by the Boards of Appeals and Interferences on July 22, 2003 (paper number 24). Since these claims have not been amended nor argued in the preliminary amendment filed on September 22, 2003 (paper number 27), the prior rejection still stands.

***Conclusion***

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3622

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
